APOD

- cholesterol binding
- glucose metabolic process
- negative regulation of monocyte chemotactic protein−1 production
- cytoplasm
- lipid metabolic process
- negative regulation of smooth muscle cell proliferation
- extracellular exosome
- extracellular space
- protein binding
- perinuclear region of cytoplasm
- negative regulation of protein import into nucleus
- extracellular region
- negative regulation of T cell migration
- response to reactive oxygen species
- negative regulation of cytokine production involved in inflammatory response
- negative regulation of focal adhesion assembly
- negative regulation of smooth muscle cell−matrix adhesion
- negative regulation of platelet−derived growth factor receptor signaling pathway
- negative regulation of lipoprotein lipid oxidation

−log10(gene p−adjust)
